

IN THE CLAIM

Please cancel Claims 5 and 8, without prejudice or disclaimer of the subject matter thereof, and amend the claims 2, 3, 6 and 7 as the following. The claims 1 and 4 are remained without any amendment. All the
5 amendments are based on the suggestion in the office action and thus no new matter is added.

LIST OF CLAIMS:

- 10 Claim 1. (Original) A quick chipping net comprising:
a first flexible ring having a first buckle at one end thereof;
a second flexible ring pivotally connected to another end of the first flexible ring so that the first flexible ring is turnable on the second flexible ring;
15 a third flexible ring having a receiving net; the receiving net being formed as a concave cambered shape for receiving a golf ball; one end of the third flexible ring being pivotally connected to the second flexible ring so that the third flexible ring is turnable on the second flexible ring; the third flexible ring having a second buckle.
- 20 Claim 2. (Currently Amended) The quick chipping net as claimed in claim 1, wherein the first buckle is a female buckle and the second buckle ~~buckled~~ is a male buckle.
- Claim 3. (Currently Amended) The quick chipping net as claimed in claim 1, wherein the first buckle is a male buckle and the second buckle
25 ~~buckled~~ is a female buckle.
- Claim 4. (Original) The quick chipping net as claimed in claim 1, wherein the third flexible ring, second flexible ring and third flexible ring are overlapped as a stacking ring and then the stacking ring is twisted to have two smaller circles; and then the two small circles are overlapped as a
30 circle, and then the first and second buckles are buckled.

Claim 5. (Cancelled)

Claim 6. (Currently Amended) The quick chipping net as claimed in claim 1, wherein a plurality of cloth fasteners ~~combinable bodies~~ are formed on an edge of the third flexible ring for installing a target net; the
5 target net serves to indicate a falling position of a golf ball.

Claim 7. (Currently Amended) The quick chipping net as claimed in claim 6, wherein the target net comprises:

a first net body,

a second net body enclosed by and isolated from the first net body; an
10 area of the second net body being smaller than that of the first net body;

a third net body enclosed by and isolated from the second net body; an area of the third net body being smaller than that of the second net body; and

four isolating nets; each isolating net having one end connected to one
15 corner of the first net body and passing through the second net body and third net body to a respective cloth fastener ~~combinable body~~ on the third flexible ring; and thus, the target net being divided into nine sections.

Claim 8. (Cancelled)
